I'm very excited about the Creative Cloud Creative Cloud Design Suite, which includes Surface Pro, Surface Book, Photoshop 2018, and After Effects 2019, and will be available in the Mac App Store starting Friday. It runs on the latest versions of Windows and macOS, so if you've got a Dell XPS 12 or a MacBook Pro with TouchBar, this is a perfect time to purchase. There are also a few things that could be better. Occasionally, the iOS app crashes and the screen goes black. As there's no obvious error, you'll have to restart your iPad and hope you don't lose data. It's a real bummer.
