Instead of typing "angry", "sad", "happy" &c., now you can simply mark desired emotional states with a smiley face and a frowny face. When generating a new image from one of the provided emoticons, you may be prompted for a new title. To insert a new title, simply type something like "Publish to Facebook" and the emoticon will be used as the new image title in the appropriate folk. With the release of Photoshop on the web, photographers and others no longer need to pay for a license to try the software. Adobe is also making the non-specialist version of Photoshop accessible to those who want to edit digital artwork or photos in an affordable manner.
